3. Authorize the Fire Chief of the District to approve Fire Road Maintenance Agreements with other cities when maintenance of the fire roads benefit the District.

### **PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION**

The previous Agreement between the District and the City as approved by your Board on September 2, 1997 (No. 70981) expired on June 30, 2007. Renewal of the agreement will allow the District to continue maintaining certain fire roads needed for wildland fire prevention and control within the City's rural areas. During brush fires, the District and other fire service agencies would utilize these fire roads for moving personnel and equipment through the area, and as fire control and containment points in the event of wildland fire. The District's maintenance of the fire roads is consistent with the County Charter which assigns the construction and maintenance of fire lanes to the District, subject to Board order.

#### **Implementation of Strategic Plan Goals**

Approval of the recommended action is consistent with the County's Strategic Goal No. 1, "Service Excellence," of the County Strategic Plan which guides us to "Implement programs to improve the efficiency, quality, and responsiveness of County services to all residents."

### **FISCAL IMPACT/FINANCING**

Routine road maintenance for certain fire roads will be done on an annual schedule with the District's existing personnel and equipment at no additional cost to the District. For any additional non-routine maintenance work as requested by the City, the District will be reimbursed for its actual costs based upon the current rates approved by the Auditor-Controller.

### **FACTS AND PROVISIONS/LEGAL REQUIREMENTS**

County Charter Section 24 1/3(d) assigns the construction and maintenance of fire lanes or breaks wherever proper and necessary to the Fire Department, subject to Board order.

The City of Glendale approved the Agreement on September 30, 2008. This Agreement will be effective upon execution by your Board and will remain in effect until terminated by either party. Termination requires at least a 30-day written notice.

County Counsel has approved this Agreement as to form.

Honorable Board of Supervisors  
November 18, 2008  
Page 3

### **IMPACT ON CURRENT SERVICES OR PROJECTS**

If approved by your Board, this Agreement authorizes the District to continue to perform routine road maintenance for certain fire roads in the City as part of the District's annual maintenance program. The maintenance of these fire roads is critical to the District's operations and is a natural extension of our road maintenance program.

### **ENVIRONMENTAL DOCUMENTATION**

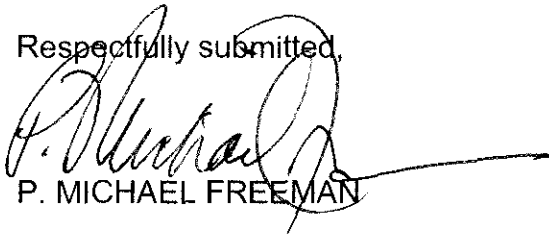

This Agreement is exempt from the California Environmental Quality Act (CEQA) pursuant to Section 15301(c) of the CEQA Guidelines because it provides for the repair and maintenance of existing roads, including road grading, that are essential to public safety.

### **CONCLUSION**

Upon approval by your Honorable Board, please instruct the Executive Officer to return two (2) adopted copies of the Minute Order and/or this approved letter; and one (1) executed original Agreement and two (2) copies of the Agreement.

The District will return the original Agreement to the City per the City's request.

Respectfully submitted,

P. MICHAEL FREEMAN
